

Intent to Continue in Professional Program (Section III.A.2 of Handbook)

Description: Students who interrupt the usual sequence of progression or who withdraw from the University should consult with their advisor and inform the program director of their intention to suspend their professional progression by filling out the following form.

I intend to suspend progression in the MLS program in the _____
(Semester, year) (i.e. fall/spring, 2012)

I intend to return and continue in the MLS program in the _____
(Semester, year) (i.e. fall/spring, 2012)

I acknowledge that when I return to the professional program there may not be an available position for me in the curriculum unless arrangements have been previously made. Also, upon returning into the program, I understand and agree that all previous professional coursework must have been taken **within a three-year period**. For all professional coursework not meeting this criterion, I must show comprehension/proficiency in those courses by departmental exam and/or laboratory practical.
